Bicycle Season Opens At Charles River.

Billy Stinson Is One Of The Star Performers.

Albert Champion Appears In Exhibition Events On Motor Wheels.

Boston, April 19.—In the opening bicycle races of the season at Charles River park today William Stinson of Cambridge defeated John Nelson by a trifle over one lap and Bobbie Walthour, the Southerner, by one and a third miles. His time for the twenty-five miles being forty minutes and thirty-four and two-fifths seconds. Albert Champion gave an exhibition on a motor bicycle, and tri-cycle both of which were very exciting.

On the bicycle he covered a mile in one minute and thirty-one seconds and five miles on the tri-cycle in seven minutes, fifty and four-fifths seconds.

THE GRANT ARRIVES.

SAN FRANCISCO, April 19.—The Twenty-ninth and Thirty-second regiments of United States volunteer infantry arrived here today from the Philippines, on board the transport Grant. The vessel also brought Company F of the Twenty-sixth volunteers, 123 sick soldiers and eighty cabin passengers. There were 1700 soldiers on board, in all. The Grant made the run from Manila to San Francisco in twenty five days and eighteen hours.

MOVEMENTS OF NAVAL VESSELS.

WASHINGTON, April 18.—The armored cruiser New York (flagship) has sailed from Suez for Perim on her way to Mailla.

Rear Admiral Kempff, acting commander-in chief of the Asiatic station, reports that the gunboats in the Philippine archipelago are distributed as follows: The Vicksburg at Zamboanga, the Nashville at Vigan, the Faraguta at Iloilo, and the Panay patrolling the coast of Mindanao. The collier Pompey is at Vigan.

NORTH ATLANTIC SQUADRON

SAILS FOR NEW YORK.

WASHINGTON, April 19.—Admiral Farragut today reported to the navy department the departure of the North Atlantic squadron from Kingston, Jamaica, for New York. The ships are due to arrive at New York about the 25th or 26th instant. They include the battleships Alabama, Massachusetts and Kearsarge and upon arrival will undergo considerable overhauling.

CANADIAN WINS MARATHON

ROAD RACE.

Boston, April 19.—John Paffrey of the St. Patrick's Athletic association of Hamilton, Ont., won the Marathon road race of the Boston Athletic club today, from Ashland to Boston, a distance of twenty-five miles, in 2 hours, 29 minutes, 23.5 seconds, lowering the previous record made by himself last year, 9 minutes and 36.25 seconds. Thirty-seven men started in the race.

IN SUPERIOR COURT.

The session of the superior court at Exeter on Friday had considerable interest for Portsmouth people, owing to the case against John Dampfy, for assault, which was up brought shortly before noon. Attorneys E. L. Gaffill and S. Peter Emery appeared for the prosecution and John W. Kelley was counsel for Dampfy. Quite a number of witnesses were heard on each side. The case had not been completed when court adjourned at five o'clock in the afternoon.

Justice Stone announced early in the day that during the remainder of the term court would convene at half past nine o'clock in the morning, adjourn at half-past twelve for dinner, and hold from two o'clock until five, in the afternoon.

Wild With Eczema

Fire Could Not Have Been More Painful.

"After spending two years in taking all kinds of medicines that were suggested for eczema, but without avail, my mother was induced to take Hood's Sarsaparilla. The result was wonderfully gratifying. Her limbs had been terribly lacerated by the disease, and there were times when fire could not have been more painful. She was, in fact, almost wild. Two bottles of Hood's Sarsaparilla completely cured her, and not a trace of eczema was left." E. W. DECKER, Gardiner, N. Y.

Eat Well; Sleep Well.

"Hood's Sarsaparilla has been a great blessing to me. I was weak, irritable, tired and nervous; had no appetite and was always sad and despondent. One day I got hold of a little book about Hood's Sarsaparilla. I looked it over and resolved to try a bottle. I was better before it was gone, so I kept on until I had taken five bottles. I can now sleep well, feel cheerful and can do all my work, including plain sewing, and I can walk two or three miles a day. I am 55 years old and now feel that life is worth living." Mrs. EMMA SMITH, 68 E. Mitchell St., Oswego, N. Y.

Critical Period of Life.

"I took Hood's Sarsaparilla during the critical period of my life, and now, at the age of 69 years, I am strong and healthy. It is a great medicine for the blood. I find Hood's to be the best." Mrs. H. POMEROY, 22 Lansing Street, Auburn, N. Y.

You can buy Hood's Sarsaparilla of any druggist. Be sure to ask for Hood's and do not accept any substitute.

Wholesale Deaths From Exposure Reported.

The News Brought Down From Nome By Two Men.

Body Of Dr. Pettenger Found By The Trail Where He Perished.

SEATTLE, April 19.—The Skagway News of April 13th, which arrived here today, says: "Two men, whose names are unknown, who arrived yesterday from Nome, bring a sensational story of wholesale deaths by exposure along the coast. They assert that 200 people had died from exposure or freezing at various points along the coast before the middle of January. Their story is not credited, as it lacks confirmation. The body of Dr. Pettenger has been uncovered a few miles from here, up the river trail, where he probably died from exposure, having mistaken the way."

SPORTING NOTES.

Powers of this city played with the Somersworth team, in its game with Dover, Fast day.

There will probably be two or three more basket ball games, before the season finally closes.

Tommy Lynsky is one of the cleverest outfielders who ever played on a Portsmouth base ball team.

The Phillips Exeter nine was again beaten by the Exeter Clippers, Thursday, by a score of eleven to seven.

Somersworth defeated Dover, at Central park, Thursday, by a score of five to four, in a thirteen inning game.

Edward M. Lewis, the popular base ball player, will probably be on the pitching staff of the Boston American league team, this season.

The Maplewood Athletic club has succeeded in making up a fast amateur base ball team, and the boys deserve the cordial support of all local lovers of the national game.

The Fast day game between the Syracuse Eastern league team and the new Nashua New England league aggregation was won by Syracuse, eleven to ten. Walter Woods pitched a portion of the game for the winners.

GAVE A COUPON PARTY.

The friends of John Leary gave him a coupon party in Reehabite hall on Friday evening, which was a most successful and enjoyable time. Turner and Hoyt furnished the music.

BASKET BALL.

Delapoons Win From the New Hampshire College Team.

The Delapoon club basket ball team won a signal victory, Friday evening, from the strong New Hampshire college team of Durham. The local players were in the game to win, and blocked the goal throwers of the college team in a manner which called forth the enthusiastic applause of the spectators. The real credit of the victory, however, belongs to Kennard Miller, who made twelve out of the thirteen points scored by his team.

The summary:

DELAPOONS.	NEW HAMPSHIRE.
Pickett	centre
Miller	forwards
Farrington	Church
Peyser	backs
Griffin	Mathes
	H. Rudlett

Goals from field, Miller 6, Bradford 1, Mathes 1; goals from fouls, Pickett 1, Weeks 1, Bradford 1. Score, Delapoons 13, New Hampshire 7.

A FINE SOUVENIR.

Charles Glidden of this city, who is employed at the navy yard, has sent to Judge Larrabee of the police court in Gardiner, Me., a very fine souvenir of the late war. It is a cane, the stick being turned from a piece of wood taken from the Spanish cruiser Reina Mercedes, which was captured at the battle of Santiago. The handle is a knob and the wood is some that was brought from Manila. The ferrule is a steel cartridge that was found on board the wreck of the Maine in Havana harbor.

GOING TO THE ASYLUM.

William Garland, who has been held at the police station since Wednesday evening, the 17th inst., when he was arrested while making a drunken disturbance on Market street, has been adjudged insane and was taken to the state asylum at Concord this (Saturday) morning. Officers Anderson and McCaffrey went up with him on the half past eight o'clock train. Garland was examined by several physicians on Friday, and they all pronounced him in a bad way mentally.

AT THE NAVY YARD.

The swift current makes it exceedingly difficult to drive piling for the new railroad bridge.

Col. Morrissey of construction and repair blacksmith department is enjoying a fifteen days' leave of absence.

A Few Words about

Pain-Killer

A prominent Montreal clergyman, the Rev. James H. Dixon, Rector St. Jude's and Hon. Canon of Christ Church Cathedral, writes: "Permit me to send you a few lines to strongly recommend PAIN-KILLER. I have used it with satisfaction for thirty-five years. It is a preparation which deserves full public confidence."

A new cure for Sore Throat, Coughs, Croup, Whooping Cough, etc.

Two Sizes, 25c. and 50c.

There is only one Pain-Killer, PERRY DAVIS.

KING JOLLITY REPEATED.

Second Performance of Tunesful Operetta Given Very Smoothly.

The second performance of the operetta King Jollity drew another large audience to Music hall on Friday evening. The piece was given with a smoothness which elicited hearty expressions of appreciation, and all the principle features of interest duplicated the success which they had achieved on the opening night.

During the progress of the piece Marion Brown, acting for the entire corps of local participants, presented to Professor Wales, the executive head of the production, a very handsome and enduring souvenir in the form of a solid gold chain, with an odd and valuable charm.

Professor Wales, by his energy and tact, has earned the high regard of all with whom the origination and production of the operetta has brought him in association.

The write-up of King Jollity in Friday evening's Herald, lengthy and appreciative as it was, could not embrace all the praiseworthy features of the operetta, so numerous were they. Eloise Whittier and Marion White, the two girls who did the jolly breakdown with such vim as to cause a furore, deserve special mention. So does Freeman Caswell, whose acting as the court jester was certainly very clever.

In the course of this second and final performance of King Jollity, bouquets galore were handed to the principals, by their many delighted friends in the seats. Professor Wales came in for a generous share.

In the audience were noticed scores of people who had seen the operetta on the first night and enjoyed it so greatly that they eagerly improved the opportunity to attend once more.

The presentation of this charming operetta has made a notable event in the history of Portsmouth theatricals and will be most pleasantly recalled by all who have had the good fortune to attend. It was by far the most elaborate thing ever attempted by local amateurs, whose courage in engaging in it has only been equalled by their success in putting it on.

UP TO DATE COMPASS.
RADICAL CHANGE PROPOSED BY
NAVY DEPARTMENT.

Time Honored "Boxing" to Be Abol-
ished and Degree System Substituted—
New Card Has the Advantages
of Accuracy and Simplicity.

According to the New York Herald,
Rear Admiral R. B. Bradford, chief of
the bureau of equipment, has sent to
well known mariners for criticism a
proposed new compass card designed
by Lieutenant Commander S. B. W.
Diehl, superintendent of compasses.
The object of the proposed change is
to omit the present system of points
and fractions thereof and use degrees
only. The present card contains points
and degrees. The conversion of one in-
to the other, Lieutenant Commander
Diehl says, is a natural result of the
presence of both, but is not a necessity,
as would speedily be recognized were
the points omitted.
Accuracy requires expression in de-
grees for courses, bearings and com-
pass errors and not in points, the use of
which is but a duplication of work.
The circumference of the proposed
card is divided into the usual 360 de-
grees and marked continuously to the
right from zero degrees at north to 90
degrees at east, 180 degrees at south,
270 degrees at west and 360 degrees at
north.
The card is subdivided into divisions
of ten degrees, accentuated by heavy
lines on the graduated rim and by suit-
able geometric figures on the card, each
ten degree division on the card being
indicated in figures by its appropriate

NEW COMPASS CARD.
number from zero degrees or north.
Each ten degree division of the card is
further subdivided into half and quar-
ter divisions and appropriately marked.
Every fifth degree line of the graduat-
ed circle between the ten degree divi-
sions is marked in figures, indicating
its appropriate number from zero de-
grees or north.
The cardinal and intercardinal direc-
tions are emphasized on the card in
geometric figures. In illustration of
the simplicity of the proposed card
Lieutenant Commander Diehl com-
pares the present card of 360 degrees,
having 32 points, one of which repre-
sents 11 1/4 degrees, one-half point 5.625
degrees, one-quarter point 2.8125 de-
grees, with the proposed card, also of
360 degrees, which has 36 divisions,
one of which equals 10 degrees, one-
half 5 degrees and one-quarter 2.5 de-
grees.

Lieutenant Commander Diehl says he
believes the proposed marking of the
compass card would result in greater
accuracy in navigation in its relation
to the compass. Courses would be laid
in degrees and more accurately noted,
as the approximate course of S. W. by
W. 1/4 W., "a little westerly," for exam-
ple, would be replaced by the exact
course of 240 degrees.
Chances of error in the application of
the deviation to compass courses would
be lessened. Conversion of points into
degrees and the reverse would be elimi-
nated from the problem. Boxing the
compass would be a matter of a few
minutes' instruction to the layman of
average intelligence. Sailing directions
would be simplified. All work in rela-
tion to the compass would be facili-
tated.

American Pencils Gaining.
The German pencil trade is suffering
severely from competition of American
lead pencil makers. The ingenious in-
vention of machinery of American fac-
tories and their large scale of produc-
tion, and especially cheaper prices at
which they can supply themselves
with cedar wood, are the chief causes
for the failure of German makers to
hold their own. The fact is that Ger-
many is practically dependent upon the
United States for her supply of cedar
and the best of the wood is kept in
America.—Scientific American.

Cause of Sighing.
Professor Lumsden says that sighing
is simply oxygen starvation. Sighing is
most commonly associated with wor-
ry. An interval of several seconds
often follows movements of mental
disquietude, during which time the
chest walls remain rigid until there is
an imperative demand for oxygen, thus
causing the deep inhalation. It is the
expiration following the inspiration that
is properly termed a sigh, and this
sigh is simply an effort of the organism
to obtain a necessary supply of oxygen.

Manticoes Dying Out.
In an account of Manchuria given in
Petermann's Mittheilungen the state-
ment is made that the Manticoes are
disappearing under the influx of the
Chinese, and the time is probably not
far distant when their language will
cease to be spoken, as their children
are taught Chinese.

Writing With Aluminium on Glass.
In a patent for writing on glass the
glass is first moistened with strong vin-
egar, and the writing or other design is
then made with an aluminium point.
Industrial particles of the soft metal
are left adhering to the glass, and the
writing is fairly permanent.

OCEAN TELEPHONY SOON.
Scientists Believe That This Difficult
Problem Has Been Solved.

According to a recent issue of The
Electrical Review, a telegraph and tele-
phone company has purchased the
patents of Dr. M. I. Pupin of Columbia
university, which, it asserts, cover the
art of ocean telephony and enable tele-
phone messages to be sent over any
length of land lines. It adds that the
sum of \$200,000 has been paid to Dr.
Pupin for this invention, with an an-
nual salary of \$7,500 to him during the
life of the patents.

Two patents were issued in June,
1904, for the invention referred to,
which is described at length and char-
acterized as one of the most brilliant
and exceptional inventions of Dr. Pu-
pin.

It had been thought necessary in or-
der to talk a given distance, say 500
miles, with underground cables to em-
ploy large copper wires thickly cov-
ered with insulating material. The ex-
pense of such wires and material has
been sufficient to prevent the construc-
tion of long underground circuits.

Dr. Pupin's invention, it is declared,
furnishes a method whereby conductors
of relatively small diameter cov-
ered with insulating material of mod-
erate thickness may be used in place of
the large and expensive conductors for-
merly thought necessary. It is difficult
to express in nontechnical language the
theory upon which the invention is
based, but it may be said to be a method
of "fighting fire with fire." One difficulty
with which telephonists most contend
is what they call "self induction," an-
other is "static retardation," and a third
is known as "resistance."

Dr. Pupin has placed these various
difficulties in such a settled relation
that they have expended their malign
influence upon one another and have
left the telephone current free to pro-
ceed upon its way unmolested. In
other words, he has "set a thief to
catch a thief," and these disturbers ex-
panding their evil strength on them-
selves neutralize their destructive
qualities. The article finishes as fol-
lows:

"Experimenting with artificial con-
ductors, Dr. Pupin discovered that it
was possible to telephone over vastly
greater lengths of cable than had ever
been possible before and is able to
make any desired length of telephone
circuit easily possible. He has shown
a design for induction coils to be in-
troduced at appropriate intervals in a
transatlantic cable, which would allow
telephonic conversation to be held
across the Atlantic ocean."

We Lead the World.
The United States seems likely to
stand at the head of the world's list
of exporting nations in the year 1900.
During the past five years only the
United Kingdom and the United States
could be considered as competitors for
the distinction of being the world's
greatest exporter of articles of home
production. In 1894 the United King-
dom led the United States by nearly
\$250,000,000, and in 1897 the United
States had so rapidly gained that she
was but \$60,000,000 behind. In 1898
the United States took first place, our
exports in that year exceeding those of
the United Kingdom by nearly
\$100,000,000. In 1899 the United King-
dom again stood at the head of the
list, her exports exceeding those of the
United States by nearly \$35,000,000.
In the 11 months of 1900 the domestic
exports of the United States exceed-
ed those of the United Kingdom by \$5,
473,970, and should this rate of gain
be maintained in December the United
States will in the year 1900 show a
larger exportation of domestic products
than any other nation in the world.

Comparing the growth of our export
trade during the last quarter of the
century with that of the other great
nations of the world, we are able to
better measure the wonderful progress
shown. France shows no increase in
her exports of domestic merchandise
in the closing quarter of the century.
Germany shows during the same pe-
riod an increase of about 50 per cent,
and the United Kingdom shows from
1875 to 1900 an increase of nearly 40
per cent, while the United States
shows during that time an increase of
practically 200 per cent. In 1875 the
exports of domestic merchandise from
the United States amounted to \$497,
263,737, while those of Great Britain
aggregated \$1,087,407,000. In 11
months of 1900 the United States ex-
ported goods worth \$1,308,913,780,
while the United Kingdom's exports
amounted to \$1,303,440,000.—Philadel-
phia Press.

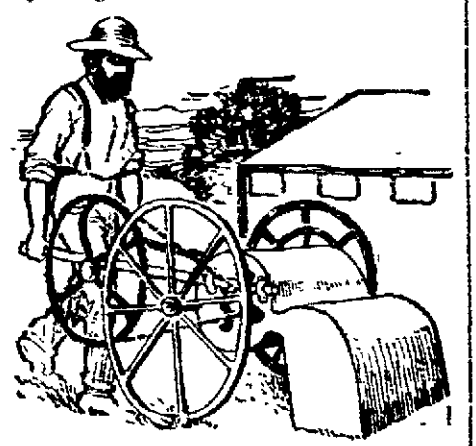

Arsenic in Wall Paper.
Take a fragment of the suspected pa-
per and put it into a solution of ammo-
nia. If arsenic be present, the liquid
will assume a bluish color. If further
test be required, pour a little of the
ammoniacal solution on crystals of ni-
trate of silver, and arsenic, if present,
will show itself by leaving a yellow de-
posit on the crystals.

Unwashed Fruit.
"All kinds of diseases may be traced
to the eating of unwashed fruit," says
a well known authority on bacteriology
in commenting on the spread of dis-
ease through unknown sources. The
result of a careful examination has
clearly shown the danger of eating
fruit of any kind without washing it.

Miles of Glands.
There are 2,400,000 sweat glands on
the human body, each one-fiftieth of
an inch long, and their aggregate length
is two and a half miles.

KILLS WEEDS OR INSECTS.
Novel Farm Implement Capable of a
Variety of Uses.

Benjamin F. Brown of Wedington,
Ark., has designed the apparatus de-
scribed by the Chicago News for use
in destroying insects and noxious
weeds and also for burning stumps of
trees. It consists of a firebox which
burns either coal or wood, with a ro-
tary fan to create intense heat by forcing
the draft. The furnace is mounted on
a two wheeled carriage, which makes
it easy to transport it from place to
place, and arrangement is made for
adjusting the size of the mouth

through which the fiery draft is emit-
ted and also for revolving the fan by
hand when the machine is standing
still, as when burning a stump. When
utilized for destroying weeds or burn-
ing stubble, the hood is adjusted close
to the ground and the machine pro-
pelled at a rapid rate, when the gear-
ing puts the fan in motion and drives
a fierce blast through the opening in
front, which cuts a swath of ashes
through the field. By providing for
the substitution of a fertilizer spread-
ing apparatus or seeder in place of
the firebox the machine's utility can be
greatly increased, and it will be found
a valuable addition to the stock of
farm machinery.

To Prevent Shipwrecks.
During the past two years there have
been many wrecks of vessels navigat-
ing the coasts of British Columbia and
Alaska. I have heard complaints from
mariners engaged in the northern trade
that the coasts north of this city are
not properly lighted and that the wa-
ters to the northward have not been as
fully sounded as safety to vessels re-
quires.

I append hereto an editorial article
which appeared in The Province, pub-
lished in this city. If the invention
therein described will accomplish the
results claimed, it is undoubtedly need-
ed along these coasts. Shipping statis-
tics show that the recent storms along
the western coast of British Columbia
have surpassed in general destructiveness
any previous visitations. From Cape
Beale north along the Vancouver
Island seaboard has long been dreaded
ground for navigators, a portion of it
being known by the significant name
of "the graveyard of the Pacific." It
will interest those whose calling takes
them into these waters to learn that
an invention is now being investigated
by the marine authorities and navi-
gators at Southend-on-Sea which, if it
may not go a long way toward making
lighthouses obsolete and unnecessary,
is expected to be of much value in the
prevention of shipwreck from any one
of 90 per cent of the usual causes.
This is an automatic system of signal-
ing, which will warn ships of their ap-
proach to dangerous rocks and coasts
in all weathers, when even a flashing
light might not be seen and the boom-
ing of a fog horn be unheard. A metal-
lic conductor is fixed on an elevation
ashore or a lighthouse or reef or light-
house. From this electric wire waves are
transmitted over a zone which has a
radius of seven miles. All vessels with-
in that area which are fitted with re-
ceivers are warned of their proximity
to danger, the distance and the point
of the compass being registered. At
the same time a bell rings, and the re-
ceiving instrument records the name
of the place that is being approached.

The automatic part of the invention
consists of steel bearings with a num-
ber of teeth which pass over a Morse trans-
mitter. No operators are needed. The
instrument or machine works absolute-
ly automatically. In its elementary
principles the system resembles Mar-
coni's method of wireless telegraphy,
but in detail the system is essentially
different. The committee of investiga-
tion at Southend-on-Sea has enthusias-
tically endorsed the invention after
submitting it to a variety of tests in
both fair and foul weather, and a syn-
dicate is now being formed to engage
in its manufacture on a large scale, the
inventor stipulating that the price main-
tained shall be a moderate one, he him-
self preferring to be remembered as a
philanthropist rather than as a million-
aire inventor.—L. Edwin Dudley, United
States Consul at Vancouver.

A Year's Railroad Building.
There were 4,804.41 miles of new
railroad completed in the United States
the past year, according to the pre-
liminary estimates of The Railroad
Gazette. The returns cover 286 com-
panies in 43 states and territories. The
comparison with the returns of 1899
is favorable, 284 companies having
built 4,569.94 miles that year, that hav-
ing been the largest new building since
1891 and 1892.

Among the companies building the
Chicago, Burlington and Quincy leads,
with 213 miles in four states and terri-
tories. The Chicago, Milwaukee and
St. Paul built 173 miles; the Chicago,
Rock Island and Pacific, 169 miles; the
Northern Pacific, 151 miles; the Chi-
cago and Northwestern, 149 miles; the
Burlington, Cedar Rapids and North-
ern, 100 miles; the St. Louis and San
Francisco, 111 miles; the Seaboard Air
Line, 95 miles; the Illinois Central, 91
miles, and the Gulf and Ship Island,
70 miles.

BASEBALL BEGINS.
Only One Game—Bad Weather Pre-
vents Others.

New York, April 19.—The race for
the National league baseball pennant
of 1901 commenced yesterday, but the
start was spoiled by the wet weather,
which caused a postponement of the
opening at the Polo grounds with a
game between the Giants and Boston.
In Cincinnati, where Pittsburgh was to
open, and in St. Louis, where Chicago
was to begin, the rain and wet ground
also put a stop to the fun.

At Philadelphia, where the champion
Brooklyn team was billed to appear,
better fortune waited upon the base-
ball cranks, and 20,000 of them turned
out to see the Quakers cross bats with
Hank's Superbas. The game resulted
in a victory for Brooklyn. The score
follows:
Brooklyn, 6 1 0 0 0 3 0 1 1—12
Philadelphia, 0 0 3 3 0 0 1 0 0—7
Hits—Brooklyn, 16; Philadelphia, 14.
Errors—Brooklyn, 2; Philadelphia, 2.
Batteries—Donovan and McGuire; Dunn,
Duggles and McFarland.

TWO RED ROSES.

**Why Both Women Felt Better After
an Explanation Was Made.**

There is an innate satisfaction in the
possession of the genuine. On the other
hand, there is a grateful sense of su-
periority in having got the better of some-
one in the palming off of the artificial.
So it is really rather difficult to decide
whether it is more pleasing to ex-
hibit the true or the spurious. As a mat-
ter of fact, the latter is of such skillful
contrivance these days as to make it al-
most impossible of detection.

At a recent Saturday evening "at
home," a function at which the ever pre-
scent chafing dish plays an important part,
the appearance of the hostess was ad-
mirably set off by the delicately tinted
tea rose, fragrant, modest and bewitch-
ing, which peeped out from the artfully
arranged coils of copper colored hair.
Wherever the hostess moved, there moved
masculine admiration and feminine envy.
The rose, with its unassuming scent, was
just the touch necessary to the success of
the Grecian toilet.

Among the guests was a young matron
of classic features and raven hair. As
it happened, she was the only one of the
invited who wore a rose in her hair. A
blood red specimen gleamed and shone in
the folds of its dusky environment, and
the woman was very good to look upon
as she moved across the room. Others
had carried bouquets in their hands, but
she alone wore a rose in her hair.

Yet she was not happy. She felt that
the hostess had outstripped her in the
matter of hair ornament. When admiring
glances were turned her way, she
heeded them not, because she imagined
they were comparing glances and not
signs of approval; that their casters were
contrasting her unfavorably with the
hostess who wore the tea rose. And so,
after a time, when the hour for going
home came, the young matron was moved,
in spite of herself, to concede to the
hostess:

"Good night, dear. And how charming
you looked with that lovely rose in your
hair."

"Oh, I am so glad you liked it," said
the other in an embarrassed sort of way.
She hesitated a minute, glanced at the
red rose on the head of her guest, and
then said, "Of course you know it is an
imitation."

"You don't say so?" exclaimed the call-
er.

"Yes, and I have been embarrassed all
evening thinking how unnatural it must
look beside your lovely real rose."

"Oh," said the young woman, in a burst
of unwonted frankness, "mine's artificial
too."

And all the way home she felt better
than she had felt during the evening.—

Where Science Stumbles.
In a lecture on "The Progress and
Tendency of Astronomy," delivered at
Columbia university, Washington, Pro-
fessor Simon Newcomb spoke of the
determination of the exact motion of the
solar system as one of the victories of the
nineteenth century. It is determined that
the solar system is moving forward in
space 40,000 miles an hour, but whence it
came or whither it is going no one can
tell.

Mr. Newcomb does not believe instru-
ments will ever be discovered that will
allow astronomers to prove that rational
inhabitants exist on other planets. The
only way in which they can judge will be
by conditions of other planets which
could make it probable or improbable
that rational beings such as are on the
earth can live there.

Mars may be inhabited, but astron-
omers have not been able to draw any evi-
dence on that subject one way or the
other. What changes may come to the
earth, the solar system or the universe
can only be matters of uncertain specu-
lation. Only one theory can be counted
upon, and that is that "all things must
end."

The first currency issued by the whites
within the limits of the United States
was wampum, which was adopted by the
Massachusetts colonists in 1607 in their
intercourse with the Indians.

HIGH PRESSURE DAYS.

Men and women alike have to work
incessantly with brain and hand to hold
their own nowadays. Never were the de-
mands of business, the wants of the
family, the requirements of society,
more numerous. The great effect of the
praiseworthy effort to keep up with all
these things is commonly seen in a
weakened or debilitated condition of
the nervous system, which results in
dyspepsia, defective nutrition of both
body and brain, and in extreme cases in
complete nervous prostration. It is
clearly seen that what is needed is what
will sustain the system, give vigor and
tone to the nerves, and keep the diges-
tive and assimilative functions healthy
and active. From personal knowledge,
we can recommend Hood's Sarsaparilla
for this purpose. It acts on all the
vital organs, builds up the whole sys-
tem, and fits men and women for these
high pressure days.

THE HUSTLER.

Who has found a cure for the "blues?"
All the resources of science and the en-
tire range of the pharmacopoeia have
failed to provide a remedy. But if there
are any people in this city who are sub-
ject to attacks of melancholy, they may
proceed to lift up their voices in a glad
homage of thankfulness that at least an
infallible panacea has been found which
never fails to banish dull care, and this
sovereign specific is that merry melange
of wit, fun, melody and song—the
bright and diverting farce-comedy,
The Hustler, which will be seen in all
its effulgent completeness at Music
Hall on Monday evening, brought up-
to-date. The Hustler has enjoyed the
greatest universal popularity ever ac-
corded to a farce-comedy. Year after
year it has been greeted by packed
houses in every city. This popularity
has in no wise diminished with age,
and now, rejuvenated, entirely new
with no part of the old show left except
the name, it has been launched once
more upon a gigantic scale. In this
new exposition of brilliant humor there
will be marshalled an unusually large,
talent-d and versatile company, com-
edians whose names are synonyms for
bright, keen-edged wit and quip; humor-
ists and popular rank equally with
their male confederates.

The Country club will have to get a
bullet in order to have their grounds
ready when the golf season opens.

Three Votes From Odell.
Albany, April 18.—Governor Odell
has voted three legislative measures.
The most important of the three bills
is the measure of Assemblyman
Schneider amending the police pension
act for the city of Buffalo. The bill
proposed to pension on half salary a
member of the police force who had
served 30 years. The second vetoed
measure is that of Assemblyman Kal-
ser, authorizing Seneca Falls to issue
bonds for bridge purposes. The third
bill vetoed is a measure of Assembly-
man Ellis, relative to digging along
highways.

DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which as far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach or liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablets being a scientific combination of Guaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration, in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, valves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration has extended so far as to destroy the septum of the nose. He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membrane of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

WEST'S MINSTRELS COMING.

William H. West will bring his magnificent organization of minstrel celebrities to this city in the near future. Mr. West has always been exceedingly prolific in ideas and much of the great evolution in minstrelsy during the past dozen years can be attributed to his liberal expenditures and original ideas. He was the first to introduce the white-face first part and to present high-class musical features by some of the highest salaried vocalists on the American stage. His minstrels this year are pronounced far and above in merit all previous attempts in this line of entertainment. From the first part to the sensational finish everything denotes a refined taste. All the vocal numbers, comedy features and olio events are of an expensive and high class nature. The first part setting, costumes and accessories are said to rival any production seen this season. Mr. West has secured many noted and famous performers, vocalists and special features for his company this year, embracing the names of such prime favorites as Billy Emerson, Billy Van, Ernest Tenny, Raymond Teal and Charles Whalen, who will each have a joke to crack and a song to sing in the first part, with Mr. West acting as their interlocutor. The program comprises many musical gems which will be rendered by such famous vocalists as Richard J. Jose, J. P. Rodgers, Manuel Roman, W. H. Hollett and F. H. Hammond. The singing of The Holy City by this quintette has created a veritable sensation this season.

WITH THE THEATRICAL FOLK.

The Hustler next.

It has been a great week for theatricals in Portsmouth.

West's big aggregation of minstrels has been booked by Manager Hartford.

The last performances of Ben Hur in Boston today. The week has witnessed some big audiences.

Miss Mandie Scott, who was here in the McAniff company, is to star in a company of her own next season.

Sadie Martinot is negotiating for a Broadway theatre in which to produce Clyde Fitch's play, The Marriage Game, next season.

Clyde Fitch sailed for Europe on Saturday, going direct to Naples. Later he will visit Sicily and, while abroad, will complete his new output of plays for next season, and will return in September.

A stage version of "Alice of Old Vincennes" has been written by Edward E. Rose, and Virginia Harned will be made a separate star in it by Mr. Frohman. Mr. Rose is to dramatize "A Gentleman of Louisiana" and "Eben Holden." E. M. Holden will probably act the title part in the latter.

Willis Steel has made a four-act drama of "Wolfville," by Alfred Henry Lewis. Charles Frohman, who will make the production in December, is said to have considered intrusting the dramatization to William Gillette, but had abandoned that scheme because of the actor-author's many other employments.

There was no police court this forenoon. Two men, who were arrested for drunkenness on Friday night, were released without a trial.

WORK IS PROGRESSING.

The Hampton Seabrook Beach Highway Being Rushed Along Rapidly.

EXETER, April 20.—Under the energetic management of the contractors for the work, the highway across the marsh from Hampton to Seabrook beach is being rapidly constructed. A force of twenty Italians are at present employed, and with the many teams on the work the scene is a busy one. Until the hard pan of the beach is reached marsh material will be used to the height of at least four feet. On that will be put eighteen inches of gravel. The sides of the road will be protected from the rush of the high run of tides by railroad sleepers driven on a slant beside the road and on these will be spiked hemlock planks.

The length of the bridge across the Black Water ridge will be over 200 feet. Beside the bridge there will be several openings for waterways to allow the passing of water when the marsh is flooded in the high run of tides.

The length of the boulevard bridge across Hampton river is 4130 feet. The contract for building the highway across the marsh and on the beach and the bridge across Hampton river has been given to Massachusetts Construction company, which built the Exeter, Hampton and Amesbury street railway.

SONS OF REVOLUTION.

Marker Recommended for Fort William and Mary in Portsmouth Harbor.

CONCORD, April 20.—The annual meeting of the New Hampshire society, S. A. R., was held here yesterday with a good attendance. C. B. Spofford of Claremont, the president of the society, presided. These new members were admitted: B. Frank Nealley, Samuel Hale, Dwight Hall, Dr. H. R. Parker, Lieut. Edward Tuttle, Herbert C. Greene, John H. Nealley of Dover, M. D. Griffith, Adelbert M. Nichols of Claremont.

The report of the secretary, Rev. H. F. Hill of Concord, showed 39 admitted to membership during the year, one has been transferred to the Massachusetts society and three have died. The present membership of the society is 295. There are 24 Spanish war veterans on the rolls of the society. Rev. F. H. Hill, as treasurer, reported all bills paid and a cash balance of more than \$200 in the treasury.

It was voted to indicate to the national society that the New Hampshire society recommends for William and Mary in Portsmouth harbor where the first armed opposition was made to the British government, as a suitable place for a marker or memorial.

The following officers were elected: President, Albert S. Batchelor of Littleton; vice presidents, Frank W. Rollins of Concord, Rev. Dr. D. C. Roberts of Concord, Henry M. Baker of Bow; secretary and treasurer, Rev. Howard F. Hill, D. D., Concord; registrar, William P. Fiske of Concord; historian, John Scates of Dover; chaplain, Rev. D. C. Roberts, D. D., Concord; board of managers, William W. Flint, Otis G. Hammond, Concord; John Dowd, Manchester; Frank W. Russell, Plymouth; Will B. Howe, Edson C. Eastman, Concord; Charles B. Spofford, Claremont; finance committee, Harley B. Roby, Rufus H. Baker, Josiah E. Fernald, Concord.

It was voted to leave the selection of delegates to the national congress in Pittsburg, Penn., April 30-May, 1, to the board of managers.

LEFT A VALUABLE ESTATE.

EXETER, N. H., April 20. The inventory of the estate of the late Charles H. Mendum of Portsmouth, just filed in the Rockingham probate registry, shows real estate holdings of \$198,700, and personal property amounting to \$17,937.31.

New Quarantine Commissioners. Albany, April 19.—Governor Odell has sent to the senate the names of Hugh McRoberts and Frederick H. Schroeder to be reappointed New York quarantine commissioners and Charles H. Murray to succeed Edmund J. Palmer in a similar capacity. Charles H. Murray has held the offices of aqueduct commissioner and police commissioner. He shares the leadership of the Eighth district with Assemblyman Adler. Mr. McRoberts is a prominent Republican in Richmond, and Mr. Schroeder is the leader of the Twenty-first ward in Brooklyn.

TO INVESTIGATE.

Several weeks ago two women from York were in Portsmouth, soliciting funds with which to procure an organ for the little church at Clay hill, Ag. mentions. It seems that one of the women had some disagreement with the church people, and the authority to solicit funds was taken from her. Wednesday two wardens of the church were in Portsmouth, and state, that, although this party was not supposed to solicit any more, it is said she was in town on Monday asking for contributions, and they were here, to investigate the matter.

SONS OF REVOLUTION.

Marker Recommended for Fort William and Mary in Portsmouth Harbor.

CONCORD, April 20.—The annual meeting of the New Hampshire society, S. A. R., was held here yesterday with a good attendance. C. B. Spofford of Claremont, the president of the society, presided. These new members were admitted: B. Frank Nealley, Samuel Hale, Dwight Hall, Dr. H. R. Parker, Lieut. Edward Tuttle, Herbert C. Greene, John H. Nealley of Dover, M. D. Griffith, Adelbert M. Nichols of Claremont.

The report of the secretary, Rev. H. F. Hill of Concord, showed 39 admitted to membership during the year, one has been transferred to the Massachusetts society and three have died. The present membership of the society is 295. There are 24 Spanish war veterans on the rolls of the society. Rev. F. H. Hill, as treasurer, reported all bills paid and a cash balance of more than \$200 in the treasury.

It was voted to indicate to the national society that the New Hampshire society recommends for William and Mary in Portsmouth harbor where the first armed opposition was made to the British government, as a suitable place for a marker or memorial.

The following officers were elected: President, Albert S. Batchelor of Littleton; vice presidents, Frank W. Rollins of Concord, Rev. Dr. D. C. Roberts of Concord, Henry M. Baker of Bow; secretary and treasurer, Rev. Howard F. Hill, D. D., Concord; registrar, William P. Fiske of Concord; historian, John Scates of Dover; chaplain, Rev. D. C. Roberts, D. D., Concord; board of managers, William W. Flint, Otis G. Hammond, Concord; John Dowd, Manchester; Frank W. Russell, Plymouth; Will B. Howe, Edson C. Eastman, Concord; Charles B. Spofford, Claremont; finance committee, Harley B. Roby, Rufus H. Baker, Josiah E. Fernald, Concord.

It was voted to leave the selection of delegates to the national congress in Pittsburg, Penn., April 30-May, 1, to the board of managers.

DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which as far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach or liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablets being a scientific combination of Guaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration, in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, valves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration has extended so far as to destroy the septum of the nose. He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membrane of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

WEST'S MINSTRELS COMING.

William H. West will bring his magnificent organization of minstrel celebrities to this city in the near future. Mr. West has always been exceedingly prolific in ideas and much of the great evolution in minstrelsy during the past dozen years can be attributed to his liberal expenditures and original ideas. He was the first to introduce the white-face first part and to present high-class musical features by some of the highest salaried vocalists on the American stage. His minstrels this year are pronounced far and above in merit all previous attempts in this line of entertainment. From the first part to the sensational finish everything denotes a refined taste. All the vocal numbers, comedy features and olio events are of an expensive and high class nature. The first part setting, costumes and accessories are said to rival any production seen this season. Mr. West has secured many noted and famous performers, vocalists and special features for his company this year, embracing the names of such prime favorites as Billy Emerson, Billy Van, Ernest Tenny, Raymond Teal and Charles Whalen, who will each have a joke to crack and a song to sing in the first part, with Mr. West acting as their interlocutor. The program comprises many musical gems which will be rendered by such famous vocalists as Richard J. Jose, J. P. Rodgers, Manuel Roman, W. H. Hollett and F. H. Hammond. The singing of The Holy City by this quintette has created a veritable sensation this season.

WITH THE THEATRICAL FOLK.

The Hustler next.

It has been a great week for theatricals in Portsmouth.

West's big aggregation of minstrels has been booked by Manager Hartford.

The last performances of Ben Hur in Boston today. The week has witnessed some big audiences.

Miss Mandie Scott, who was here in the McAniff company, is to star in a company of her own next season.

Sadie Martinot is negotiating for a Broadway theatre in which to produce Clyde Fitch's play, The Marriage Game, next season.

Clyde Fitch sailed for Europe on Saturday, going direct to Naples. Later he will visit Sicily and, while abroad, will complete his new output of plays for next season, and will return in September.

A stage version of "Alice of Old Vincennes" has been written by Edward E. Rose, and Virginia Harned will be made a separate star in it by Mr. Frohman. Mr. Rose is to dramatize "A Gentleman of Louisiana" and "Eben Holden." E. M. Holden will probably act the title part in the latter.

Willis Steel has made a four-act drama of "Wolfville," by Alfred Henry Lewis. Charles Frohman, who will make the production in December, is said to have considered intrusting the dramatization to William Gillette, but had abandoned that scheme because of the actor-author's many other employments.

There was no police court this forenoon. Two men, who were arrested for drunkenness on Friday night, were released without a trial.

WORK IS PROGRESSING.

The Hampton Seabrook Beach Highway Being Rushed Along Rapidly.

EXETER, April 20.—Under the energetic management of the contractors for the work, the highway across the marsh from Hampton to Seabrook beach is being rapidly constructed. A force of twenty Italians are at present employed, and with the many teams on the work the scene is a busy one. Until the hard pan of the beach is reached marsh material will be used to the height of at least four feet. On that will be put eighteen inches of gravel. The sides of the road will be protected from the rush of the high run of tides by railroad sleepers driven on a slant beside the road and on these will be spiked hemlock planks.

The length of the bridge across the Black Water ridge will be over 200 feet. Beside the bridge there will be several openings for waterways to allow the passing of water when the marsh is flooded in the high run of tides.

The length of the boulevard bridge across Hampton river is 4130 feet. The contract for building the highway across the marsh and on the beach and the bridge across Hampton river has been given to Massachusetts Construction company, which built the Exeter, Hampton and Amesbury street railway.

HARBOR FRONT NEWS.

Arrived, April 20.—Tug Piscataqua, Boston, large Berwick for Portsmouth and Elliot for Elliot; tug Knickerbocker, Portland, for Perth Amboy, towing large Benavides, do.

Very rough outside.

HE KEPT HIS LEG.

Twenty years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poison set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I need one bottle of Electric Bitters and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. The Globe Grocery Co. will guarantee satisfaction or refund money. Only 50 cents.

Volunteers Mustered Out.

San Francisco, April 19.—The Thirty-
third and Thirty-fourth volunteer reg-
iments, recently returned from Manila,
have been mustered out. The Twenty-
eighth and Thirty-fifth infantry,
now in camp at the Presidio, expect to
be mustered out of the service April
30. Although there are very few troops
here now under orders for the Philip-
pines, the transports will be rushed
there as quickly as possible, so as to
be in Manila to bring home all the vol-
unteers to be mustered out by the 1st
of July.

Harboring the Boers.

London, April 19.—A dispatch from
General Kitchener, dated Pretoria,
April 17, says, "Plumer has occupied
Bathfont, capturing 13 prisoners and a
number of rifles and ammunition.
Donglass' column has occupied Dulla-
stroom. Six Boers were killed. On
General Kitchener's advance from
Lydenburg the Boers blew up a 'Loig
Tom.' Thirteen prisoners were cap-
tured. Elliott's division has brought
in a large number of cattle."

ENGLAND'S BIG DEFICIT

**Sensational Statements in the
House of Commons.**

GREAT COST OF THE BOER WAR

Double the Expense of Crimean Cam-
paign—Increased Receipts From
Income and Other Taxes Sadly In-
adequate—New Taxes Needed.

London, April 19.—The house of com-
mons, which adjourned from April 3,
resumed its sessions yesterday. Every
seat was occupied when Speaker (Gully)
took the chair at 3:20. There were 21
questions on the calendar. The house
proceeded to business at once.

The Right Hon. A. J. Balfour, gov-
ernment leader, said that the rule pro-
viding that all business under consid-
eration at midnight should be inter-
rupted and postponed on certain days
would be suspended in order to allow
the consideration of certain budget
resolutions and a loan resolution to be
concluded.

Sir Michael Hicks-Beach, chancellor
of the exchequer, in presenting the
budget said that in the last few years
he had happily been able to congratu-
late the country on its financial posi-
tion. This year his position was not
quite so satisfactory. At the same
time the exchequer revenues showed
no sign of decrease.

Sir Michael stated that it was esti-
mated that the total expenditures this
year would amount to £187,602,000,
of which £58,324,000 would be for carry-
ing on the war.

The chancellor of the exchequer said
the receipts from the income tax had
been remarkable, amounting to £26,
320,000, or £1,120,000 beyond the esti-
mates. Within 12 years the amount
of assessable income had increased by
£120,000,000.

He estimated the total expenditures
for 1901-2 at £187,600,000, while the
revenues at the present rate of taxa-
tion would yield only within £57,000.

CUBAN MAYORS ACCUSED.

**Frequent Violations of the Election
Law Charged.**

Havana, April 19.—General Wood
has received a number of petitions
from political parties regarding the
arbitrary and despotic behavior of lo-
cal mayors, who completely ignore the
election law when it suits them to do
so.

The law provides for the proper
representation of all the parties on the
boards of registration, but the mayors
often refuse arbitrarily to allow mem-
bers of the opposite parties to have
representation, making the excuse that
these parties are fakes.

At a public meeting of the constitu-
tional convention the resignation of
Senor Berriel as a member of the com-
mission to visit Washington was ac-
cepted, and Senor Betancourt was ap-
pointed in his place. The commission
will sail tomorrow.

The sentence of two men who were
condemned to death last June in Ma-
tanzas has been commuted to impris-
onment for life. Had the original sen-
tence been carried out the culprits
would have been garroted. They would
have been the first to be executed un-
der the military government. General
Wood decided to commute their sen-
tence on the unanimous vote of the
council of secretaries. The previous
executioner of Cuba was a big negro,
who received a Spanish ounce for
every person he put to death. He was
regarded as a sort of an executioner.

CIVIL RULE IN CEBU.

Judge Taft Establishes Provincial
Government.

Cebu, Philippine Islands, April 19.—
The act establishing provincial govern-
ment in Cebu was passed yesterday.
Julio Lorente, justice of the supreme
court of the Philippines, who is a na-
tive of Cebu, was appointed governor.

The United States Philippine com-
mission announced that they were sat-
isfied the act would assist in the pacifi-
cation of Cebu, pointing out that oth-
erwise there would be a recurrence to
military government. The adjacent
pueblo of San Nicholas was added to
the city of Cebu, though against the
protest of the inhabitants of San Nic-
olas, who, like the inhabitants of most
towns in this island, have been con-
vinced what are practically insurrec-
tionary local governments, including the
collection of taxes, all of which has been
permitted by Lieutenant (Colonel) Mc-
Clenahan, the military governor, who
justifies this course on the principle
that it is all carried on under military
supervision. Most of the subordinate
military officers favor a more vigorous
policy.

The commissioners are disappointed
at the conditions in Cebu. Senor Lo-
rente, who is an honorable and capable
man, is opposed by a considerable na-
tive faction, but his administration is
expected to relieve what is admittedly
a state of siege.

Alleged Burglar Shot.

Trenton, April 19.—John Gombow-
ski, alias Joe Smith, who was wanted
in Philadelphia to answer charges of
burglary, was accidentally shot and
killed in south Trenton yesterday after-
noon by Detective John J. Clancy of
the Trenton police department.

AGUINALDO IS WAVERING

**Reconsiders Promise to Ask
Insurgents to Surrender.**

PRESSURE WILL BE APPLIED.

**Attention of Filipino Leader Will
Be Called to His Delicate Position
May Be Tried For Violating Laws
of War.**

Washington, April 19.—Aguinaldo
has reconsidered his promise to issue
an address to the insurgents in arms
advising them to surrender and accept
American sovereignty. Additional
pressure, which will be applied by
Major General MacArthur, may have
the effect of inducing him to return to
his original purpose.

War department officials, who were
at first hesitant in their belief that a
proclamation from Aguinaldo would
have an excellent effect in ending the
insurrection, now profess to place lit-
tle faith in the results of such a docu-
ment and assert that they care little
whether Aguinaldo signs it or not.

General MacArthur cabled Secretary
Root on March 29 that "as the result
of conferences now in progress it is
probable Aguinaldo will issue an ad-
dress" advising acceptance of Ameri-
can supremacy. Three weeks have
passed, and the address has not yet
appeared. There have been frequent
exchanges of messages between Sec-
retary Root and General MacArthur
relating to Aguinaldo's attitude, but
these are kept secret for reasons of
state. Enough was learned yesterday,
however, to show that Aguinaldo is
determined to comply with General
MacArthur's wishes, and this change
is ascribed to his former counselors in
Manila, with whom he was permitted
to communicate.

If Aguinaldo refuses to aid this gov-
ernment in effecting the surrender of
the Filipinos in arms, the authorities
say, he can be tried for violation of the
laws of war and severely punished.
General MacArthur has doubtless im-
pressed upon Aguinaldo the delicate
position he occupies.

Manila Frauds Serious.

There is no further disguise in the
war department of the fact that fraud
has been perpetrated in Manila in con-
nection with the disposition of govern-
ment stores. That such practices have
been extensive is officially denied by
General MacArthur, that they are cer-
tainly serious is shown in the dispatch
containing his denial.

General MacArthur's statement has
been received and is in answer to an
instruction sent by Secretary Root to
report by cable "on the reports from
Manila implicating certain subordinate
officers of the army in fraudulent prac-
tices" and enjoining him to "take se-
vere and drastic measures to punish
the guilty." This is the reply as made
public by the department.

"With reference to your telegram of
16th, press report grossly exaggerated,
misleading; matters therein touched
upon regarding officers' subsistence
department fully investigated. Pro-
ceedings (mailed by transport Sheri-
dan.

"Regarding theft commissary stores,
amount which grossly exaggerated by
press reports; immediate, most drastic
measures already been applied. Three
officers and number enlisted men be-
ing tried court martial, number citi-
zens military commission."

Commissary General Weston received
a dispatch from Colonel Woodruff
to this effect:
"Do not permit scandalous reports
worry you. Affairs subsistence depart-
ment of the army administered honest-
ly, satisfactorily, officers and troops."

Considering Colonel Woodruff's dis-
patch in connection with that sent by
General MacArthur, it is apparent that
the commissary department proper has
been relieved of all responsibility for
the frauds.

Weekes Breaks More Records.

New York, April 19.—Harold H.
Weekes, Columbia's athlete, yesterday
tested his strength on the Sargent sys-
tem and broke both his own and the
university records. He scored 1,700
pounds, 165 more than he did ten days
ago and 287 better than the university
record last year. In the test for the
strength of the back Weekes yesterday
lifted 814 pounds and in the strength
of legs test 1,353 pounds. He made
40 dips and with no intervening rest
climbed himself 28 times. Among
Weekes' other scores were: Strength of
lungs, 300; strength of right grip, 82;
strength of left grip, 88. A noteworthy
fact about the feat is that Weekes is
not now training.

CITY BRIEFS

Quite a lot of people from this city were visitors in Boston on Patriots day.

Portsmouthites have certainly had plenty of amusement the present season.

The Portsmouth Gun club will soon occupy its new quarters at Christian shore.

Ninth annual ball Gen. Marston command, Union Veterans Union, at Philbrick hall, May 1st, 1901.

"Better out than in"—that humor that you notice. To be sure it's out and all out, take Hood's Sarsaparilla.

Walter Woods has pitched two games for Syracuse thus far this season, losing to Boston and winning from Nashua.

The basketball season has closed in this city, the game on Friday evening being the last of any important games.

The Maplewoods have a strong baseball team this season and will make amateur nines in this vicinity hustle to win.

King Jollity was certainly a great success and Portsmouth talent once more demonstrated that it is second to none.

Quite a number of base ball fans from this city visited Boston on Friday and witnessed the opening league game of the season.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma.

Biddeford is to witness a production of King Jollity and Prof. Wales leaves here for that city on Monday, to begin the rehearsals for the same.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

Many ugly rumors are floating about town as to the condition of things at city hall, but it is hoped for the city's fair name that they may prove to be unfounded.

Scrofula, salt rheum, erysipelas and other distressing eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Blood Bitters.

It is rumored that Christopher Smart, owner of the hotel Eagle property, has sold it to a Boston man, who will soon take possession and make many improvements.

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley Street, Saugerties, N. Y.

Tenements were never so scarce in this city as at the present time, and many of the workmen on the navy yard would bring their families here if they could secure tenements in which to house them.

Dr. Barnham of Beverly, Mass., who is to practice medicine in the town of Rye, has secured office rooms and parlors at the residence of George N. Perry in that town and is to move his effects there at once.

Down in Biddeford they are making a big splash over a magic well, so called, the waters of which cured Bill Rhodes of liver trouble. Perhaps any other old water might have proved just as effective on Bill, but then, what's the use of discouraging Maine people against taking water once in a while?

The dealers in nursery stock are having a hard time just at present in trying to get around an obstacle to their business which has arisen in New York state. There the legislature passed an act prohibiting the admission of any nursery stock into the state unless it be accompanied by a certificate of the state entomologist showing that it is free from disease. The state of New Hampshire has so such officer, and the nursery men here don't know how to secure these certificates.

The body of Abner Royal of Richmond, Me., who died suddenly in this city on Thursday night, was sent to

his home today for funeral services and interment. The body was prepared for shipment by Mr. Oliver W. Ham.

The body of Mrs. Lydia A. Miller, who died in Fort Smith, Kansas, has been received in this city and will be sent to Sharon, Mass., for interment. The body was sent here through some error of the relatives.

Eld. J. M. Currie of Manchester, will preach at the Advent Christian church on Hanover st. tomorrow at 2:45 and 7:15 p. m. Other services as follows: social meeting at 10:30 a. m. Sunday School at 12 m. Children's services at 6 o'clock. All are invited to these services.

STILL MISSING.

Mrs. Jero Perkins and Edward Foss and \$800 Have Not Been Located

The wife of Jero Perkins and Edward Foss, their young boarder, and Mr. Perkins' \$800, are still missing. The officers have been active in the search for them, however.

Officer Hilton is in Boston, Assistant Marshal West has been in Newburyport and Deputy Sheriff York of York has been in Dover and Somersworth, after the couple and the money, but without success.

The alleged elopers had too good a start for the officers. The woman had left York before the officers had been notified and seems to have made every moment count in getting out of the way of her husband.

OBITUARY

Mrs. Sarah E. Hall.

The death of Mrs. Sarah E. Hall, widow of William Hall, occurred at No. 12 Washington street this morning. Her age was eighty years.

Timothy Sullivan.

Timothy, the infant child of Mr. and Mrs. Michael Sullivan, who live on Thornton street, at the Creek, died late on Friday evening, and Undertaker Miskell was summoned to care for the body.

Henry P. Neal.

Henry P. Neal, one of Newfields oldest citizens, died at his home on the Epping road Thursday night. For many years past he has been a great sufferer and was a cripple. He was one of the descendants of the Neals, one of the first families to settle in the town. He is survived by a widow, one son and two daughters.

REGULAR MEETING.

The Fannie A. Gardiner Rebekah lodge held their regular meeting at Odd Fellows hall on Friday evening, and it was largely attended. Eight candidates were initiated. President of Rebekah assembly, Mrs. Horton of Dover, and the officers of Puritan lodge of that city were present and inspected the work of the lodge. At the conclusion of the work a sumptuous banquet was served in the banquet hall above.

PEARL STREET CHURCH.

The pastor of the Pearl street church will preach on Sunday morning upon "The letter killeth, but the spirit giveth life." His sermon will be a plea for spiritualism as opposed to formalism, materialism, and extreme literalism in scripture interpretation.

In the evening there will be a gospel meeting opening with a song service, and a brief sermon. Seats free. All are welcome.

For Over Fifty Years

Mrs. WINDSOR'S SOOTHING SYRUP has been used for children teaching. It soothes the child, cures the teething, always all pain, cures wind colic and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

NOTICE.

SOME ARE SENT TO JAIL.

Prisoners Sentenced in Superior Court at Exeter.

Trial of Martin Toban Will Be Held Later in Term.

Reuben Bridle, Mary English, Joe Brown among Those Sentenced.

EXETER, April 20.—The indictments returnable by the grand jury were made public for the first time at Friday's session of the superior court, following which many of the prisoners were arraigned and a few, who pleaded guilty to the specified charges, had sentences imposed and their cases disposed of. The indictments were as follows:

Charles George, Sandown, peddling without a license; plea of not guilty.

John W. Simmonds, Plaistow, keeping spirits for sale.

Frank A. Walker, Plaistow, two counts for keeping spirits for sale.

John Daly and Cornelius Kelliher, both of Portsmouth, larceny from person; pleas of not guilty.

Henry Garrity, Portsmouth, larceny of an overcoat. Plea of guilty; fine of \$50 and costs was imposed.

William Clifford, Portsmouth, larceny of an overcoat, plea of not guilty to less than \$10. Solicitor Kelley informed the court that the prisoner had been confined in jail for four months, and recommended that a suspended sentence be given. Clifford was ordered to serve three months in jail and pay costs of prosecution, mittimus not to be issued until called for by county solicitor.

Florence B. Chandler, Portsmouth, adultery, plea of not guilty.

Reuben Bridle, Portsmouth, adultery; plea of not guilty, afterwards retracted to one of guilty and sentenced to one year in jail and to pay \$50 and costs.

Mary English, Portsmouth, adultery; plea of not guilty, afterwards retracted and sentenced to one year in jail and to pay a fine of \$50 and costs.

Louis H. Moulton, Portsmouth, delivering cigarettes to a minor.

Oswald Pichard, Portsmouth, larceny of a shot gun; plea of guilty.

Martin Toban, Exeter, three counts: Assault with an intent to kill upon William Judson; robbery of \$26 from William Judson; breaking and entering the cottage of George E. Brackett at Greenland and the larceny of goods to the value \$17 therefrom; pleas of not guilty. Judge Samuel W. Emery and S. Peter Emery, prisoner's counsel, requested that the trial occur the latter part of next week, the court taking the matter under consideration.

Andrew J. Roberts, Exeter, assault upon George Cammett with intent to kill; plea of not guilty. Defended by J. Warren Towle.

William S. Perkins, Exeter, keeping gambling house; plea of not guilty.
